

Get ONLINE... GO JOLA !

With any VSAT internet solution, you may have noted that the data bundles are a little more expensive. If your kids are going to YouTube all day, the bundles will go fast. Furthermore, keep in mind that the internet signal needs to leave your dish, travel to low earth orbit and back. This time for the signal to travel up and down does not make this a good solution for the dedicated online gamers. If you are one of those, move to Windhoek and GET JET.

But.... if you want to be connected anytime, anywhere in Namibia - check up on friends on Facebook, promote your business/lodge/campsite/cattle, stay in email contact, then this is the solution for you. Then you....

GO JOLA
